Re: Ground Systems, Inc., dba The AirportBus v. Public Utilities Commission of the State of California, Case No. G028189

Dear Honorable Justices of the California Court of Appeal, Fourth Appellate District, Division 3:

We are writing to inform the Court of a recent development that counters the claim in Ground Systems, Inc.'s petition for writ of review that Los Angeles International Airport ("LAX") opposes the California Public Utilities Commission's ("Commission") approval by Decision (D.) 00-06-073 of three applications to establish new scheduled and on-call passenger services between LAX and points in Orange County. (Petition, at p. 22.) The Commission's D.00-06-073, as affirmed by D.00-10-036, is the subject of the above-captioned petition for writ of review filed with the Court.

More specifically, on April 27, 2001 Mr. Michael P. Biagi, Chief for LAX's Landslide Operations Division ("LAWA"), wrote the Commission a letter noting that it recently authorized all of the three companies granted authority in D.00-06-073 to submit applications to begin scheduled bus service from LAX to points in Orange County. A copy of that letter is enclosed. Mr. Biagi anticipates in his letter that two of the three companies will submit their applications in May, 2001.

We thank you for your attention to this matter.

Respectfully Submitted,

GARY COHEN, SBN 117215
MARY McKENZIE, SBN 99940
ALBERTO GUERRERO, SBN 87129
